

Points of View Reference Center - Browsing by Subject

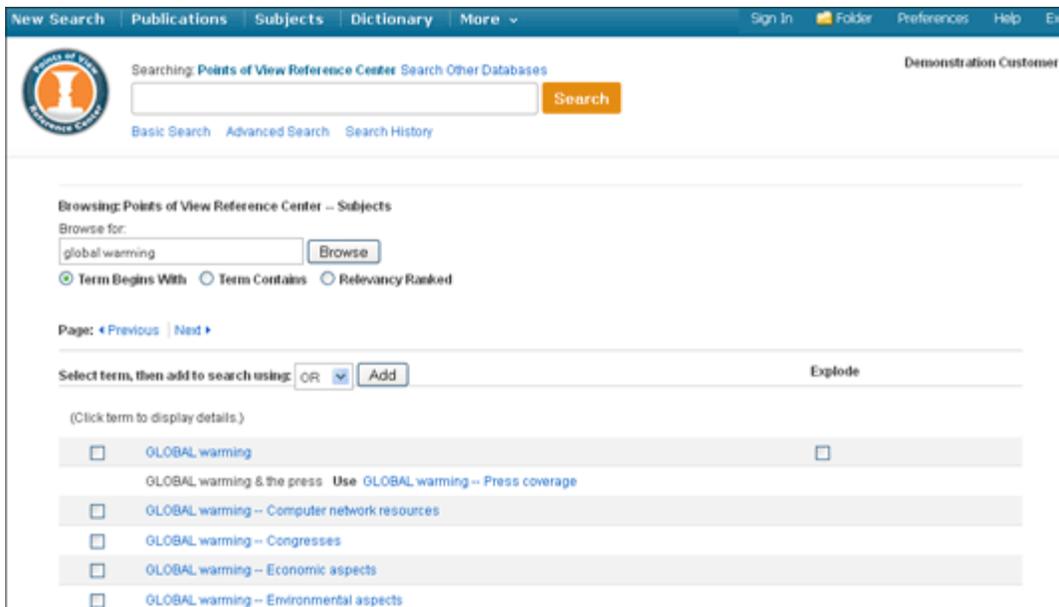

Points of View Reference Center allows you to browse a list of subjects or subject terms.

To browse the Subject Authority File:

1. Click the **Subjects** link at the top of the *Points of View Reference Center* Home Page screen. The Browse Subjects screen displays.

2. Enter your search terms in the **Browse** field.
3. Select a display option from the available radio buttons below the Browse field. Select **Term Begins With**, **Term Contains**, and **Relevancy Ranked**.
4. Click the **Browse** button to view your terms as they appear in the Subject Authority File.

5. The Result List appears. There may be a hierarchy of subdivisions related to your search. Click any of the hyperlinked terms to view information for them.
6. You can mark the check box for one or multiple terms and click the **Add** button. The terms are added to the **Find** field. To run a subject search against the main database, click the **Search** button.

OR

You can click on a subject term to view any available **Scope Notes**, **Broader Terms**, **Narrower Terms**, or **Related Terms**.

The screenshot shows the 'Points of View Reference Center -- Subjects' interface. At the top, there is a search bar with 'global warming' entered and a 'Browse' button. Below the search bar are radio buttons for 'Term Begins With' (selected), 'Term Contains', and 'Relevancy Ranked'. There are also links for 'Back to List', 'Previous', and 'Next'. A section titled 'Select term, then add to search using:' contains a dropdown menu set to 'OR' and an 'Add' button. To the right of this section is an 'Explode' checkbox. The main content area is a table with columns for 'Term', 'Description', and 'Explode'. The first row is for 'GLOBAL warming', which is selected with a checkbox. Its description is: 'Here are entered works on an increase in the average temperature of the Earth's atmosphere, possibly caused by the greenhouse effect, that may cause change in climates. [EPC]'. Below this are sections for 'Broader Terms', 'Narrower Terms', and 'Related Terms', each with a list of terms and checkboxes. The 'Used for' field at the bottom shows 'WARMING, Global'.

Term	Description	Explode
<input checked="" type="checkbox"/> GLOBAL warming	Here are entered works on an increase in the average temperature of the Earth's atmosphere, possibly caused by the greenhouse effect, that may cause change in climates. [EPC]	<input type="checkbox"/>
Broader Terms	<input type="checkbox"/> CLIMATOLOGY <input type="checkbox"/> ENVIRONMENTAL physics <input type="checkbox"/> GLOBAL temperature changes	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
Narrower Terms	<input type="checkbox"/> CARBON dioxide equivalent (Greenhouse gases) <input type="checkbox"/> EFFECT of global warming on plants <input type="checkbox"/> EFFECT of global warming on water supply	
Related Terms	<input type="checkbox"/> ABRUPT climatic changes <input type="checkbox"/> AIR pollution <input type="checkbox"/> ATMOSPHERIC temperature <input type="checkbox"/> CARBON dioxide mitigation <input type="checkbox"/> CLIMATE change skepticism <input type="checkbox"/> CLIMATE feedbacks <input type="checkbox"/> ENVIRONMENTAL degradation <input type="checkbox"/> GLOBAL warming in motion pictures <input type="checkbox"/> GREENHOUSE effect (Atmosphere)	
Used for	WARMING, Global	

7. If the **Explode** check box is present, you can check it to explode your term when it is added to the Find field. Exploding a term means that the search will retrieve all references indexed to that term, as well as all references indexed to any narrower term(s).
